

God Created the Birds and Fish for Man's Enjoyment

God created huge whales in the ocean like this one. There are even whales that are much bigger than this one. In the picture below are several shell fish. Just think of how many different kinds of shells there are.

Inside each little shells there is a little living creature. God created some just like these on the fifth day.

The bald eagle is one of the biggest flying birds. They are able to soar in the heavens with ease.

The beautiful ducks below are birds that spend most of their time on the water. They are also able to fly, but not as well as many other birds. This was God's wonderful work on the fifth day of creation.

God's Creation

PK1

- Lesson Six -

The Fifth Day of Creation

Before the fifth day, the only life that God had created was the grass and the trees. He had not yet created any life with a soul. But on the fifth day, God created a higher form of life than the plants. He created animals in the sea and in the air. Plants don't think or breathe or move, but animals do. Genesis 1:21 *"So God created the great creatures of the sea and every living and moving thing with which the water teems... and every winged bird according to its kind".*

God Creates the Fish

On the fifth day God created the fish in the sea. The fish were the first creatures that could move and think. He created so many different kinds of fish.

From those which are so small that you can hardly see them, to the gigantic whales, God created them all.

God said to them, "Be fruitful and multiply and fill the waters..." (Gen 1:22). Because of this there are so many fish in all of the seas. Some fish are very beautiful and others are strange.

Memory Verse

“So God created the great creatures of the sea and every living and moving thing with which the water teems... and every winged bird according to its kind.”

(Gen 1:21)

God Creates The Birds

After God created the fish in the sea, He continued by creating every kind of bird in the air. Just think about all the different kinds of birds that there are. God created them all on the fifth day. Most birds fly, but some of them do not. Many of them are very pretty. They were all created for man’s enjoyment.

Use your colored pencils to make the fish and birds very colorful.
