

2 – 4 Year Olds Children’s Meeting

LESSON 33 THE SPRING SEASON

TEACHERS: Pray together; read Genesis 1:1-19

OPENING TIME: Sing from “Songs for Toddlers” notebook, especially “The heavens are for the earth”

BIBLE VERSE: “And God said, Let the earth sprout grass, herbs yielding seed, and fruit trees bearing fruit ...” Genesis 1:11

LESSON

1. God created the Sun to be light, and to warm the earth.
2. Once the ground is warm, we can plant seeds for fruits and vegetables to grow.
3. Every vegetable and fruit has a seed in the middle of it—or as part of it—that can be planted for that fruit or vegetable to grow.

ACTIVITIES: Have several fruits and vegetables to show the children where the seeds are, for example:

Strawberry—the seeds are on the outside

Cucumber—very light seeds in the middle

Orange—the seeds are inside the sac

Peach—one big see

Apple—dark seeds in the center

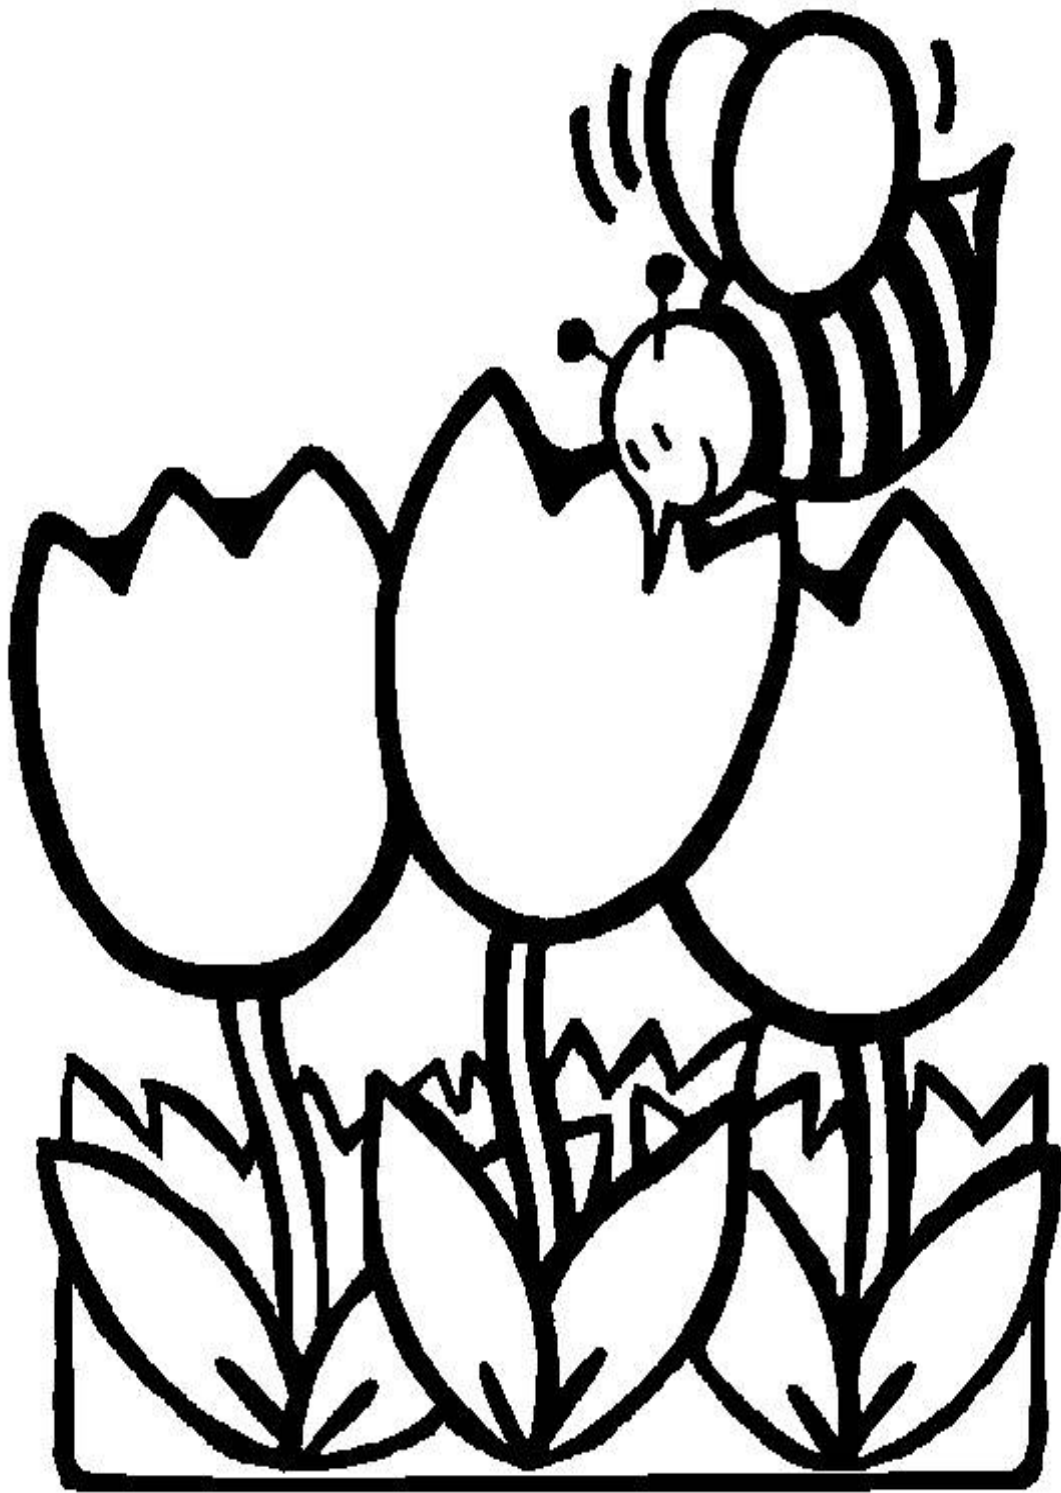

Green pepper—seeds in the middle.
