14. The Creator.
15. As our Provider, God gives us _____ to eat.

I. Overview.

The one true God is the Creator of the universe. He created the heavens, the earth and every creature on the earth. He is unique. Only He should be our God. He existed before everything and He created everything that exists. God caused all things to exist and gave life to everything that lives.

He also is the Provider and Caretaker of all the creatures, especially of man. He alone should be our God, the One we love above everything else. This is an important matter, so God told us about it in the very first commandment.

We should pay close attention to this and not put anything before our God. He deserves to be the First.

Our God is the unique source of every living thing that exists.

II. Memory Verse.

“And you shall love Jehovah your God with all your heart and with all your soul and with all your might.”

(Deut. 6:5)

III. Lesson.

God Is the Unique Creator of All Things

There is only one true God. He is the Creator of the universe. He created the heavens, the earth, and all things. Apart from Him nothing has come into existence. Before anything was created, there was only God. Since He is the unique Creator of all things, we should worship only Him.

God is the Unique Source of Life

This one true God is the living God. Not only is He the One who made the universe and everything in it, but He also gave life to all things that live. His best creation of life is man. Man is His masterpiece. Since all lives, including our own, came from Him, He alone should be our God.

God is the Unique Provider and Caretaker

This unique living God is the One who takes care of His creation and all His creatures. He sends rain from heaven and gives fruitful seasons. He fills our hearts with food and with gladness. Since only God provides the things we need, all our prayers and our thanksgiving should be to Him.

Since our God, the only true God, is the Creator of the universe, the Source of all life, and is our Provider, we should only worship and love Him.

God is the unique Provider of everything that we need. He created the plants that grow and produce fruit for us to eat.

Whatever a person loves more than anything else can become his god. Some people love money more than anything else. Money

can become their god. Some people love their possessions more than anything else (like bicycles, skateboards, dolls, etc.). Their possessions can become their god. This is not right. God alone must be our God. He is the One we love with all of our heart, soul, and strength. We should love Him above everything else.
